

Greetings from GKCEM

Dear All,

We are happy to inform you that Greater Kolkata College of Engineering & Management, Baruipur welcomed the freshers, admitted in B.Tech. and Diploma courses in 2017, through a cultural program organized by a sub-committee under the CR Council of the college on 5/9/2017.

The fresher students were extended a warm welcome by Prof. (Dr.) Subhasis Sengupta who lucidly explained the difference between “Shiksha” and “Diksha” to the students. Dr. Debayan Mandal, Principal (Actg.) also welcomed the students and emphasized the importance of pursuing co-curricular activities alongwith academics. This was followed by a short speech by Mr. Shiladitya Shome (Registrar) who urged upon the students to make use of the vast stock of books in the college library.

In the latter half of the program, students presented a collage of cultural events consisting of songs, recitations etc. in which the freshers also actively participated. It was very heartening to witness the bond between the senior students and freshers who were welcomed with rosebuds and token gifts by their seniors.

Some snapshots from the event are appended:
