

Greetings from GKCEM!

We are happy to share that Department of Electronics & Communication Engineering at GKCEM, Baruipur conducted a seminar on “**An Overview of Embedded Systems**” on 28th August, 2017 at the Seminar Hall.

The seminar was delivered by Mr. Alokesh Ghosh, Joint Director and Head of Embedded Systems Section at Centre for Development of Advanced Computing (CDAC), Kolkata which is renowned for executing application oriented Research, Design and Development projects in Electronics, Information Technology and associated areas.

The topic of the seminar was chosen keeping in mind the advent and use of embedded systems technology in the design of almost all electrical and electronic gadgets and equipment in today’s world.

Mr. Ghosh gave a very informative overview of the various components of embedded systems and their application areas. He also shared some case studies from live projects that he has worked upon for various industries involving embedded systems.

Few snaps of the seminar which was attended by students and faculty members of different departments are attached for reference.
